

The Inside Story of an Invention Beyond Convention

Blinds within the IGU

Higher standards from a trusted source

Innovia Blinds are produced by Intigral, a U.S. company long known for high-quality products. In fact, Intigral's dedication to innovation means you'll get more choices and versatility than the competition offers.

Shorter lead times: Custom sizes ship in as little as five days

Rigorous testing: 290,000+ cycles
Industry standard: 3,500 cycles

Improved quality control measures
Thanks to assembly line automation

U.S. Patent Pending
14/415,653

Custom manufactured to fit exact dimensions of window required

Improved cord stack due to patented lift/tilt hardware

No-slip gear belt

A new way to look at blinds

Convenient for end users and smart for manufacturers, Innovia Blinds work inside the IGU to deliver true innovation and consistent performance.

Blinds remain dust-free in a sealed insulating glass unit

Patented lower-gear anchor self-tightens during normal operations
